# WELCOME TO OSEP ENERGY

OSEP Energy is 100% an indigenous Nigerian Limited liability company with a vision to becoming a world-class company. We bring a fresh and innovative approach to fabrication in the oil and gas. Our goal is to exceed the expectations of every client by offering outstanding customer service, while ensuring that best quality standards are always maintained in the delivery of our products and services as well in all stages during the execution of our project.

## CONTENTS

- BRIEF HISTORY
- OSEP'S SUCCESS KEY
- MISSION AND VISION STATEMENTS
- OSEP ENERGY'S PRODUCTS AND SERVICES
- OSEP ENERGY'S KEY PARTNER

Our Executive Director heads each of these business units. We also have corporate heads for administration HSE/QM and company Secretary/Legal Adviser. Over the years, we have rendered services to numerous clients' across the industry.

We have a great wealth of experience in engineering construction, procurement and contracting.

*...excellent service execution*

## OSEP'S SUCCESS KEY

OSEP Energy has a considered settled standard in all spheres of activities called excellence. *We value it, we work for it, and we earn it.*

Our quest for promoting excellence in engineering and construction industries is both absolute in all spheres and relative in its internal and absolute dimension. This translates to personal objective of being the best in what each one of us does in the external relative dimension, it could translate into a constant and continuous effort to improve our activities than that of our competitors to be the best indigenous engineering construction company relative to others, to be the safest and most dependable environmental friendly amongst all.

### MISSION STATEMENT

To deliver improved services in the oil and gas upstream industry using our core values of quality and objectivity.

### VISION STATEMENT

For OSEP Energy to become the standard by which companies within the Nigerian oil and gas upstream service providers are measured.

**"Teamwork at OSEP Energy strengthens our fortitude"**

## **MISSION**

The Engineering, Procurement, Construction/Installation and Commissioning (EPIC) activities have been dominated over the years by Foreign Multinational Firms with little Local Engineering firms at the background. OSEP Energy has evolved to rewrite this trend by providing a one - stop - shop Services that will match up with the standards as provided by these Foreign Multinationals. The above will be achieved by the participation of our team of seasoned Indigenous Engineers and Managers who are proficient in the activities of Oil and Gas sectors with the use of Modern Day State - Of - The - Art Technology and Equipment.

In the discharge of our duties, we ensure; Team Work, Security/safety of Life and Properties, The Use of Process Driven System, Adoption of Total Quality Management System T.Q.M., Good Work Ethics, Adequate Environmental Management System (EMS.) ISO 14001, High Management Skills, Continuous Employee Development, Innovations.

## **VISION**

OSEP Energy is among the few reliable and competent Local (Nigeria) engineering and construction company in Nigeria, with our seasoned professional staff with relevant experience and exposure in engineering and oil field services. We believe so much on our ability and we have come to bring high level competition in oil and gas.

With such evocative and inspiring words from the Managing Director and Chief Executive, we have embarked on a positive growth oriented mission, our dedication and competence on safety has averted accident resulting from equipment/structural failures on human errors.

# OSEP ENERGY'S SERVICES

OSEP Energy recognizing the huge service opportunities within the oil & gas industry in Nigeria has been position to be reliable, competent, and professional in delivering unrivalled high quality services to the current and future clients at all times.

In addition to our core services, we are also major suppliers of a range of material and equipment to several sectors of the industry. We try as much as position to make use of the latest technology in service delivery. Our robust project management and supply chain capability are focused towards world class services delivery.

## FABRICATION & INSTALLATION OF GRE PIPING SYSTEMS

Glass reinforced epoxy (GRE) piping systems are used for demanding clients operating in the Marine & Offshore, Oil & Gas and (Petro)chemical markets.

GRE is often used for utilities such as cooling and fire-fighting systems where the requirements for reliability and mechanical strength are high. We at OSEP Energy specialize in the manufacturing and installation of these GRE Piping Systems.

## SALES OF FIBRE GRE PIPES & INSTALLATION EQUIPMENTS HIRE

At OSEP Energy, Our GRE service unit has a wide range of activities that cut across business acquisition, business planning, and GRE project procurement. The unit also has relationship with other business functions like supply chain management, finance, admin, human resources, QA/QC, and HSE.

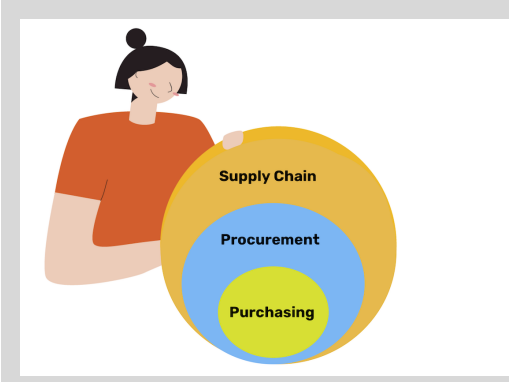

### PROCUREMENT & SUPPLY CHAIN SERVICES

OSEP Energy is fully equipped with staff trained in Procurement Services. This helps in the purchase/acquiring of goods needed for our business model. Due to our vast experience in supply chain management, these goods are turned into products and distributed to our customers efficiently.

### SYSTEM PRESSURE TEST

A pressure test is required for a new pressure system before use or an existing pressure system after repair or alteration. OSEP Energy ensures the safety, reliability, and leak tightness of pressure systems.

### FLANGE MANAGEMENT

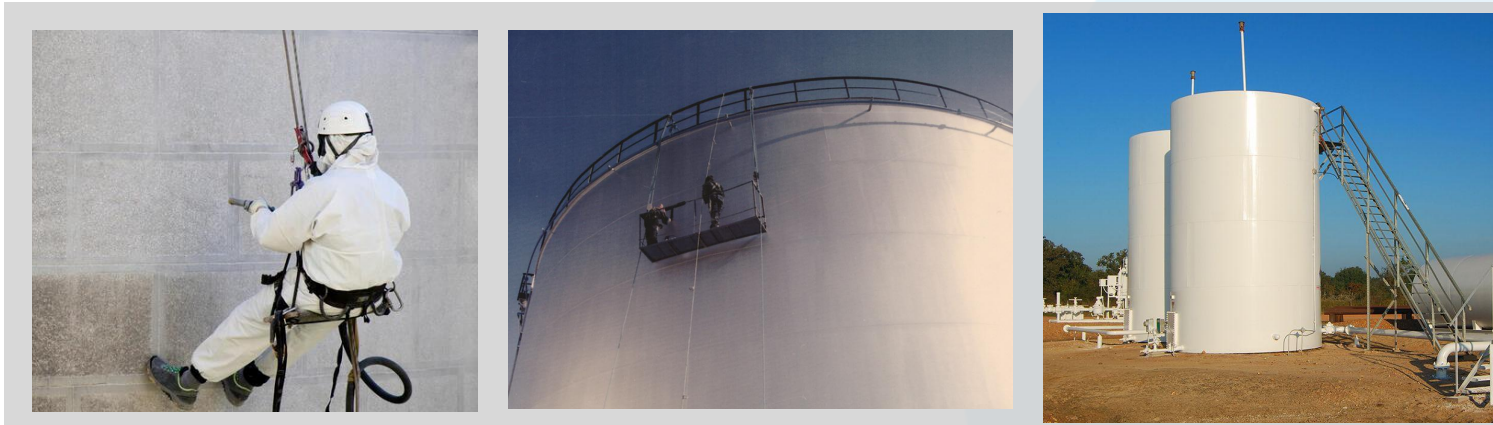

OSEP Energy provides assurance to proper assembly and tightening of bolted joints during turnaround, shutdown, daily maintenance, construction process or any intervention that follows it.

## ROPE ACCESS, BLASTING AND PAINTING

OSEP Energy offers Rope Access and are professionals in blasting of interior of tanks where all the dust generated by the abrasive blasting can be contained and evacuated. We also offer painting services for the tanks.

## STEEL/FIBRE PIPING LEAK REPAIRS

OSEP Energy offers repairs to both steel and fibre pipes without having to replace the entire piping system with the most recent technology.

## PIPELINE CORROSION CONTROL

Pipeline corrosion is the deterioration of pipe material and the related system due to its interaction with the working environment.

OSEP Energy offers services like; Cathodic Protection, Cleaning & Protection, Corrosion Inhibitors, Coating & Linings and Abrasive Blasting.

# OSEP'S KEY PARTNER

ENGINEERED COMPOSITE SOLUTIONS

Using the latest technologies and innovations, FutureWrap composite repair systems have been developed to provide long term integrity solutions across many applications. Working in harsh environments within the Oil & Gas, Energy and Renewable sectors, FutureWrap works at its best, offering solutions to damaged mechanisms, such as internal and external corrosion, cracking and mechanical damage. The repairs can be applied to all component types or pipework and pipelines, caissons and risers and also structural components, including decks.

## APPLICATIONS

- PIPEWORK
- PIPELINES
- TANKS & VESSELS
- STRUCTURAL REHABILITATION/STRENGTHENING
- CAISSONS/RISERS
- HIGH IMPACT DECK AREAS
- LIVE LEAK SEALING
- SUBSEA
- RENEWABLE ENERGY
- CORROSION PREVENTION
- LATE LIFE OF FIELD & DECOMMISSIONING
